

Introduction

Thank you for letting Scott Meyer Photography be your photographer!

We have laid out our prices in an easy to follow order:

1. Choose one of our packages or build your own package by purchasing a wall portrait and receiving 25% off your gift portraits.
2. Add on extras like composites, wallets, cards, albums, or a CD of images.
3. Choose to upgrade frames and add matting to your portraits.

During your viewing session you will be making all of your purchase decisions. **It is important that you bring along all decision makers and have a good idea of the sizes and quantities you will need.** We can then help you decide which images are best for the intended use.

Packages

Custom Framing

We offer a wide variety of framing options to fit your style and your budget. From a simple frame with no glass to beautiful mouldings with double suede mats and museum glass. We have put all of our mouldings into different groups and all of the frames in each group are priced the same.

All of our Wall Portraits 13x19 and larger come with a frame from group A. To upgrade frames, subtract the price of the Group A frame from the price of the frame you select. There are no additional fees for multiple openings in one mat!
